AUGUST 2017 | VOLUME 6

A Financial edutainment publication from the Children Banking team @Access Bank.

The school year is over, schools have closed down for the summer holiday. There are various kinds of summer camps that offer a wide variety of activities. For example, there are camps for drama, photography, dancing, singing, music, technology, science, language learning, mathematics, martial arts, crafts, religious camps and more.

It is always best for parents to sign their kids up for activities they love. For instance, if your child loves or is interested in knitting, then for them to have a memorable summer holiday, it's wise to sign them up to a summer camp where they would be taught everything about knitting.

Another tip specifically for next summer is to start your search for summer camp activity early to avoid the stress of looking for an appropriate camp at the last minute. Worse still, if you do not register early your preferred camp might be fully subscribed when you are finally ready.

There are day camps and sleep over or boarding camps.

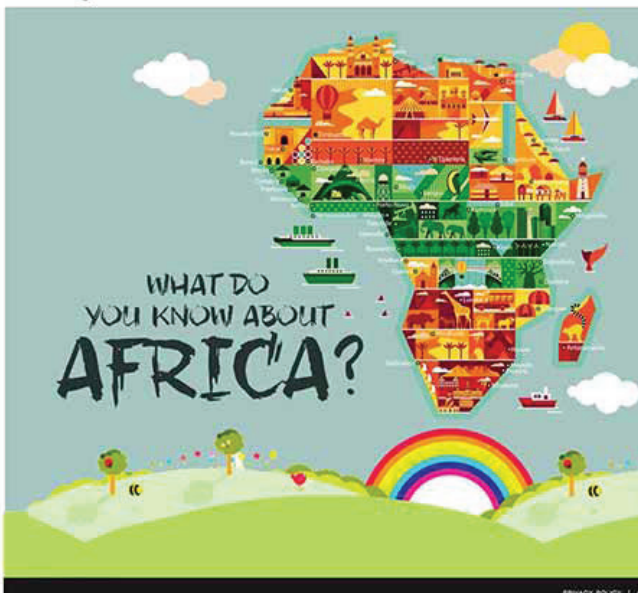

Summer camps usually cater to 5 -17 year olds. But there are now camps specifically for 0 - 5 year olds. So, however old your child is, there is something to actively engage him/her during the long holiday.

Summer Camp

HOW BEST TO ENJOY THE HOLIDAYS

1. If it's okay with your parents sign up for a week or so of summer camp. Camp is a place where you can make friends and make memories while having a great time outdoors.
2. Take advantage of your talents! Use and improve your skills while you have time. It may become a hobby to enjoy once you're good at it.
3. Relax! Summer doesn't have to be fun and games. It can also be a time for resting your brain after all that hard work at school. Go ahead, sleep in if you want, watch some television or walk around barefoot. Just do whatever puts you in a calm mood. Focusing on your brain makes you smarter and more interesting to others.
4. Read a book series in an interesting topic! This is entertaining and the new vocabulary and knowledge you have acquired will help you do better in school.
5. Watch movies! This is a time to catch up on the latest movies and enjoy all the fun characters in them.

1. Do you know that the oldest existing, and continually operating educational institution in the world is the University of Karueein, founded in 859 AD in Fez, Morocco
2. Do you know that one of the regions where the earliest form of civilization started is Egypt? The other is Mesopotamia, now known as Iraq in Asia.
3. Do you know that Africa is the second-largest continent on Earth?
4. Do you know that the highest mountain in Africa is Mt. Kilimanjaro, which is 19,340 ft. high?
5. Do you know that the Sahara is the world's largest desert, at 3.5 million square miles? That's nearly the size of the United States.
6. Do you know that the deserts, jungles, and plains of Africa are home to some of Earth's most extraordinary animals? The African elephant is the world's largest land animal. The giraffe is the world's tallest animal. The cheetah is the world's fastest land animal. The gorilla is the world's largest primate.
7. Do you know that Africa has a population of over 1 Billion people?
8. Do you know that Ethiopia is the only African country never colonised by a European power?
9. Do you know that in 1957 Ghana became the first sub-Saharan African nation to declare independence from European colonisation?
10. Do you know that in the late 19th century, about 13,000 freed American slaves settled in Liberia and gave the country its name? They also named its capital, Monrovia, after US President James Monroe.

D.I.Y CRAFT

PAPER PLATE SUN

This is a simple craft made from a paper plate and a child's hand print cut-outs.

WHAT YOU WILL NEED:

- A paper plate
- Scissors
- Googly eyes
- Yellow paper
- Glue (or stapler)
- Crayons, paint or markers

HOW TO DO IT:

- Paint the front side of a paper plate yellow.
- Trace child's hand on yellow construction paper about 7 times.
- Cut out the tracings.
- Glue or staple the hand print tracings to the backside of the plate (the fingers are the sun's rays).
- Colour in the sun, drawing a mouth and a nose. Either draw the eyes or glue on googly eyes.
